Trinity Software Announces New FIRESTORM™ Features

FORT WORTH, TEXAS, August 28, 2003 - Trinity Software, Inc., a software development and consulting company with corporate offices in the Dallas-Fort Worth area, announces enhancements to *FIRESTORM™ - its innovative business management solution for the Direct Sales and Multi-Level Marketing industries.

To specifically address client needs and industry trends, Trinity Software recently released several new features to their Firestorm™ business management software solution:

- Check Drafting Management – provides a method to separately process paper and E-checks. This gives companies a set of tools to mark, print and export checks for web, fax and phone orders.
- Customer Enhancements – to more closely manage customers of members. New web reports provide customer and sponsored member status information for members. Corporate support staff has new features for customer record lookup, including customer order process improvements.
- New Corporate Reports – provide enhanced accounting reports for product sales.
- Order/Shipping Invoice Improvements – provide bar code scanning and UPS Worldship Integration. Automated order fulfillment and inventory control from bar code scanning will be released soon.
- Commission Check Enhancements – provide the ability to create checks with MICR coding, eliminating the need to purchase pre-printed checks. Computerized check signature is also supported on all check types.

Jerry Reynolds, President of Trinity Software, noted that companies are seeking software solutions which provide more flexibility with less custom programming. In response, Trinity Software will continue to improve the quality of their products to accommodate the current demands of the industry and to proactively assess the future needs of this dynamic market. With this new release, Trinity Software affirms its commitment to help Direct Sales and MLM companies launch quickly and maintain their business on a quality, feature rich system with minimal custom programming.

Companies with a Firestorm™ license and a support agreement will receive the new release at no charge.

**FIRESTORM™ is a complete software management solution for the direct sales and network marketing industry. It is designed to streamline and enhance every aspect of a direct sales business and provides a total software solution for the needs of rapidly growing companies.
